

## Red Bluff Pet Resort fully automates *employee scheduling* with Paycor.

### INDUSTRY:

Personal Services

### # EMPLOYEES

25 Employees

### LOCATION:

Pasadena, Texas

### SOLUTION:

Scheduling Pro

“Our staff loves using Scheduling Pro. They can set notifications, pick up open shifts and even trade shifts. I’m no longer the middle man.”

—Shanna Beames, Manager, Red Bluff Pet Resort

### CHALLENGES

Red Bluff Pet Resort offers a comprehensive suite of pet care services for dogs, cats and small animals including boarding, full-service grooming, individual daycare and group play. With four different areas to cover within the facility, efficient scheduling is essential to maintain a high level of care for the animals. **Before Paycor, manager Shanna Beames relied on spreadsheets to create, manage and track open shifts. Without automation, she was forced to closely manage the entire scheduling process.**

### HR PAIN POINT

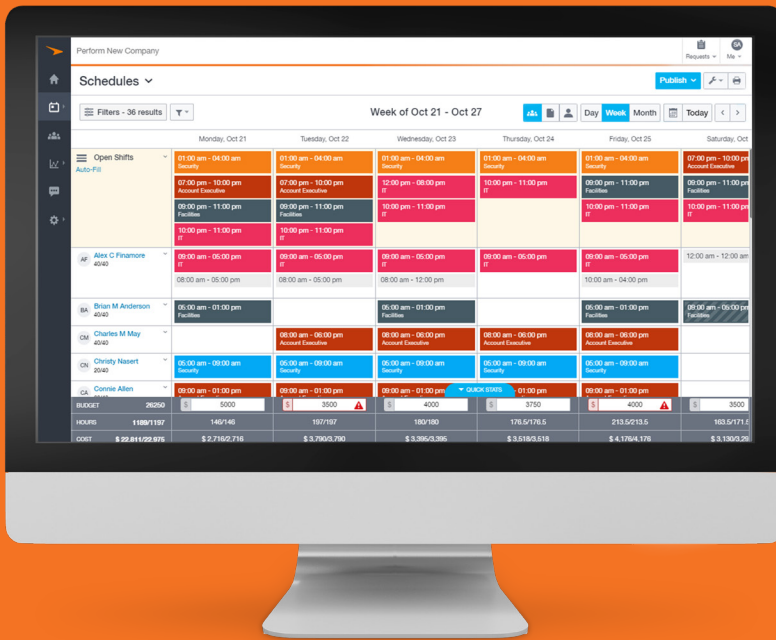

- Managing employee schedules via Excel
- Responding to scheduling requests via email
- Limited visibility for employees

### WITH PAYCOR

Self-service allows employees to access schedules from their mobile device, swap shifts and view approvals. **Since the Red Bluff staff receives shift notifications instantly when updates are made, Shanna no longer spends time tracking down employees to communicate changes.** The budget cap feature offers Shanna more visibility into hours worked and prevents costly overtime expenses. And with all Paycor solutions available in one platform, administrators aren’t forced to juggle multiple platforms.

### SOLUTION

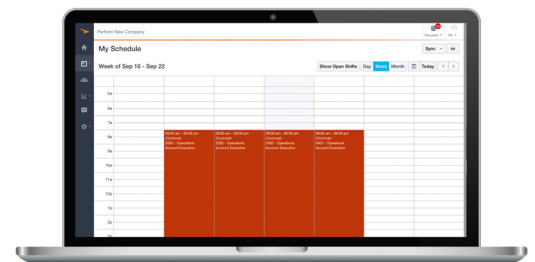

- Automated scheduling process
- Increased employee communication
- Real-time scheduling notifications

# Paycor®

## PRODUCT FEATURES

- Employee self-service
- Mobile notifications
- Budget planning
- Detailed tracking and reporting

“With Scheduling Pro, everyone has so much more visibility, and it’s made our entire scheduling process smoother and more efficient.”

— Shanna Beames, Manager,  
Red Bluff Pet Resort
