

Paycor's core solutions help Donaldson save time and eliminate errors.

Jeanette Stahli, Vice President of Human Resources

“Paycor Onboarding *empowers us* to drive employee engagement and excitement while automating all of the paperwork.”

Prior to Paycor

Donaldson struggled to get past tedious administrative tasks. **Their payroll, time and benefits solutions were disconnected**—leading to errors, duplicate entries and manual work that took time away from strategic initiatives. **The onboarding process was completely manual.** Employees spent hours filling out paperwork, preventing them from coming in and hitting the ground running. And with multiple offices, employees are often moved around to different locations. As a result, HR was forced to take the employee's data out of the old system, plug it into a spreadsheet, then upload the data to the new location's system before manually deleting the old profile—a **logistical nightmare**.

With Paycor

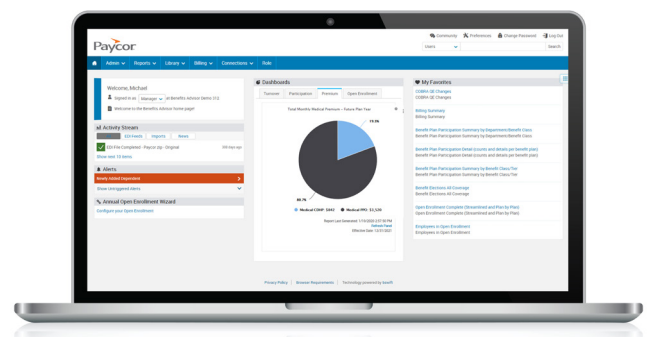

Having one hub for all employee data means **admins never have to switch platforms, log-in to multiple systems, re-key information or open multiple spreadsheets to access data**—which saves Donaldson time and eliminates errors. **And with Paycor Onboarding, their HR admins can streamline the entire process** by having employees sign documents, set up direct deposit and answer important questions before an employee's first day.

Challenges

- Manual onboarding & HR processes
- Duplicate entry
- Disconnected and outdated software

Solutions & Key Features

- Core solutions
- Automated open enrollment
- User-friendly software

Paycor Onboarding saves
Jeanette and her team

80 Hours a Year

Paycor Time

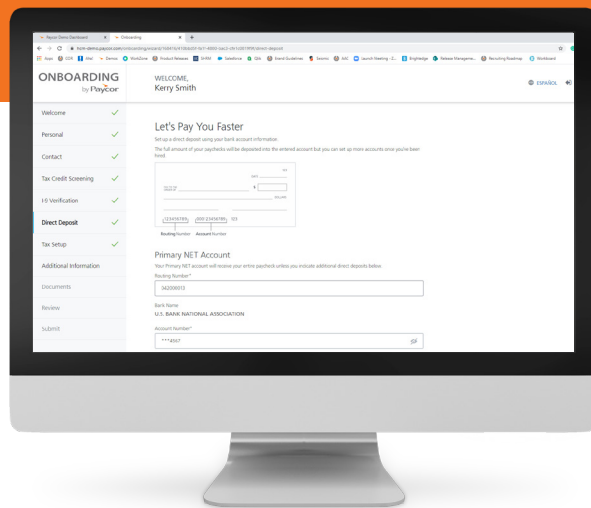

Time empowers Donaldson to create schedules, manage time-off requests and control labor expenses. And because employee hours flow directly from the time system to Paycor Payroll, managers can ensure employees are paid accurately and on time.

Paycor Onboarding

Onboarding allows new hires to complete tax forms and acknowledge handbooks and policy information before their first day, eliminating tedious work for administrators at Donaldson.

Donaldson partners with
Paycor to streamline processes,
manage employees and
increase productivity.
