Paycor

Paycor is a trusted partner that **helps Ruthmere eliminate payroll errors and track employee hours.**

Jennifer Johns, *Curator*

" With our previous provider we had to collect timecards and upload them to the payroll system. One whole day (each pay period) was eaten up just trying to do payroll. With Paycor the entire process only takes 5 minutes. "

Prior to Paycor

As the Curator of a nonprofit with fewer than 10 employees, Jennifer Johns wears many hats, HR included. **Unfortunately—with their previous provider—Jennifer had to manually enter employee information into the system multiple times.** In addition, the system didn't offer an easy way to track PTO. As a result, Jennifer had to approve PTO requests through email.

To make matters worse, their provider committed fraudulent activities that forced Jennifer to look for a new partner she could trust. That's when Ruthmere turned to Paycor.
